3. Please note that the large booklet "Planned Research and Advanced Development Program for 1967" is considered by Grumman as proprietary information. *and should not be disclosed to any other manufactures.*

MEMORANDUM

14 April

Paul -

This is the material that Gummman Aircraft has provided.

I suggest it be sent around to ASP, ASA, ORB, etc., as indicated by the attached memo, to see if there is interest in a later briefing or discussion.

Gummman will send down their experts from N.Y. if there is interest here in hearing what they have to offer.

I received this from Ralph Clark of the Gummman Wash. D.C. office & can help with anything that develops downstream, if you so desire.

Harry
